Canton High Math Team

The Canton High Math Team returned to statewide dominance this year after a down year in 2002-2003. Led by senior captains Christina Boaz, Kasey Coyne, Dan Hung, Matt Kantrowitz, David Rohr, and Darin Solomon, the team is currently in first place in both the Massachusetts Mathematics League and the Greater Boston Mathematics League. The math team will continue to work hard as it prepares for the upcoming state and New England championships in the spring.

The math team has a yearlong season, with practices often beginning before school starts in the summer and lasting until May. Competitions are held twice a month from October to May. Led by Coach Martin Badoian, who recently celebrated his fiftieth year teaching, and assistant coach William Sweeney, the mathletes have hours of rigorous practice every week to hone their problem solving skills. All team members also participate in individual competitions such as the Massachusetts Olympiad and the American Math Competition (AMC).

The team also runs the snack bar at home football games to raise money for scholarships and team activities. For additional fundraising, team members also sell Entertainment books.

The team looks forward to continuing its success into the future.

-Ben Bradlee

It's been a year of hard work and dedication for he Spectrum staff. Many old faces left and new ones took their places. It was a year for trying new hings and rebuilding, in the midst of the chaos aging around us.

A superb staff put together issues of fantastic juality and size, holding nothing back. Each writer indeditor realized that each year they have a voice and they want it to be heard.

Exchanges and Trips

In October 2003, Canton High School hosted the 25th group of students from St. Georg-Gymnasium in Bocholt, Germany. It is the only continuous exchange program that has been ongoing between the USA and Germany for a quarter of a century! In all, approximately 750 German and 450 Canton students have enjoyed a three-week stay in the host country. In April, the next group will travel to Germany and experience life on the other side of the Atlantic first hand.

Mrs. Beaton came to Canton High in 1973. Since then, she had started the French Exchange program and encouraged students to be enthusiastic about the language they were learning. Her positive attitude has captivated her many students and allowed them to experience their world of language. We will miss you Mrs. Beaton, and good luck in the future.

Mrs. Macleod will be missed by her many French and Spanish students, along with the rest of Canton High. Her work at the school can be seen in her students' ability to speak and understand languages. She combined fun cultural experience with educational work to produce an enjoyable classroom atmosphere. Her enthusiasm and dedication will be greatly missed. We wish you the best of luck in the future.

Canton High's technology department would be nowhere today without the hard work of Mr. Berube. Starting in 1969 as an Industrial Arts teacher, he later switched roles and joined the technology department at the school. He is always offering his help to others with computers or other technological problems throughout the school. His experience and commitment will be missed. We wish you the best of luck in the future.

While a teacher at Canton High School, Mr. Messinger was a member of both the history and the industrial arts departments. Over the past couple of years, he has taken on the role of teaching technology and wood classes. His personality and wide span of knowledge earned him the admiration of his students. All of Canton High would like to wish you good luck in your future endeavors.

Mrs. Healy's devotion and charisma will be missed next year at Canton High. Since 1968, she has been a member of the faculty and has dedicated her time towards teaching various computer classes and leading the community service/career-planning curriculum. She has been the yearbook advisor for over 18 years and her work will be greatly missed. We wish you the best of luck in future endeavors and offer our sincere gratitude for all your hard work and dedication.

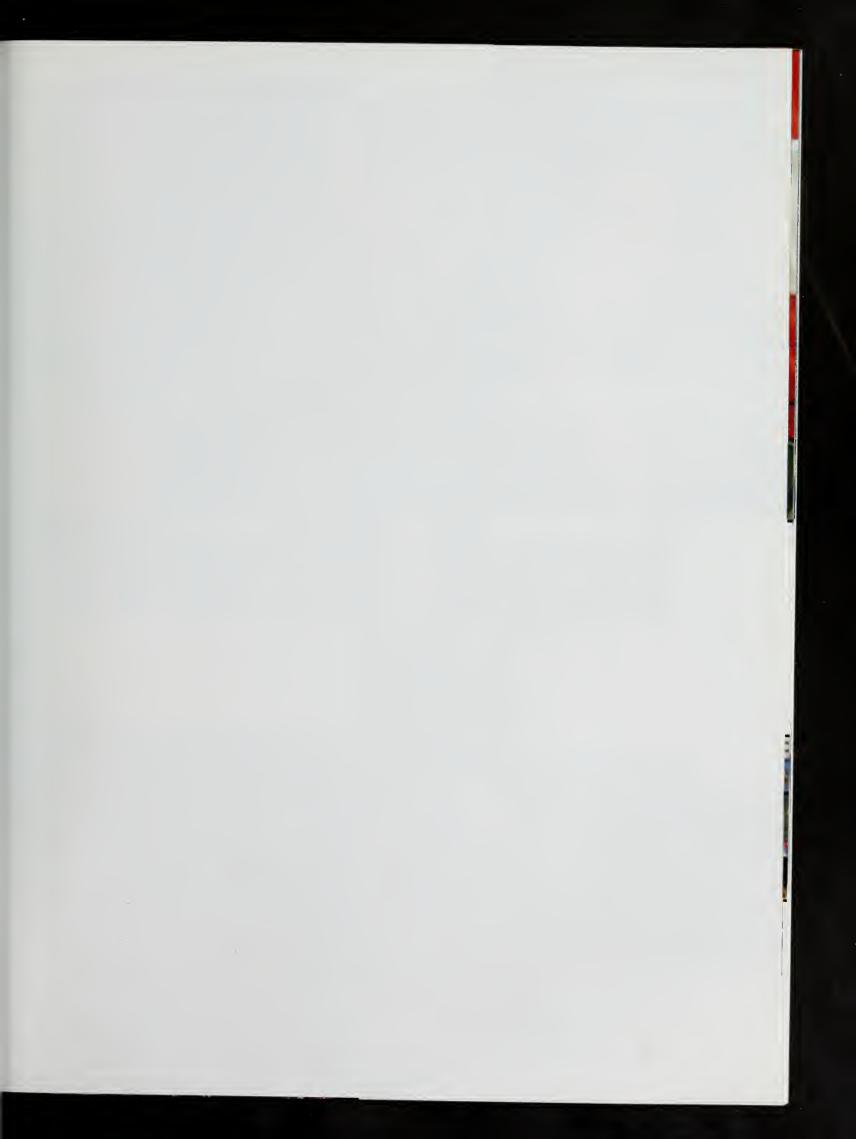

Mr. Waxman started at Canton High in 1967. Since then, the "father of the foreign language department" has worked hard to improve the French, Spanish, German. and Latin languages at the school. His hard work and dedication is evident due to the success of the programs. We thank you for all your dedication and efforts and wish you the best of luck in the future.

We wish you well.
